A resident of Kepton claims to have discovered a process by which edible flour can be manufactured from hay.

A clergyman has figured out that \$5 is spent for drink in England for every penny and a half expended for missionary work.

As soon as the milk is drawn from the cow strain it; you will thus keep the amount of dissolved fifth at a minimum.

If you have a cough, throat irritation, weak lungs, pain in the chest, difficult breathing, croup or hoarseness, let us suggest One Minute Cough Cure. Always reliable and safe—Stormes' Drug Store.

Because of the drought in California farmers in some sections of the State have been released from their sugar beet contracts.

Let the rich man waste his money on poor cows if he chooses, but the dairyman and the farmer cannot afford to keep a poor cow.

At a farm sale in Ohio, a bunch of grade sheep, about 50 in number, sold for \$4 25 per 100 pounds. This was considered a very good sale, as the sheep were in poor condition.

Geo. B. Secord, the well known contractor of Towanda, N. Y., says: "I have used Chamberlain's Cough Remedy in my family for a long time and have found it superior to any other."

It is asserted that some of the women mill workers in Southern factories are by live on 10 cents a day. This is due to the cheapness of vegetables and fruits, and the mildness of the climate, requiring but little fuel and only thin and cheap clothing.

The Harrodsburg Democrat says Jerry C. Caldwell had sold to Anderson & Spilman, the Danville millers, his growing crop of 700 acres of wheat at 60 cents a bushel. This is probably the largest individual crop in the state, and it is the first important transaction of the year.

To make a success with your station, you should advertise him. Let the people know what he is and all about him. The way to do this is come to THE RECORD office and put an ad. in the paper, or have some neat cards printed. We only want a living price for our work.

To allay pains, subside inflammation, heal foul sores and ulcers, the most satisfactory results are obtained by using BALLARD'S SNOW LINIMENT. Price, 25 cts. and 50 cts. C. C. & J. E. Stormes, & Fish & Co., Paint Lick. Im

Milking can never be done successfully by a machine; the mechanical operation may be there, but the magnetism of the human hand is wanting. The cow which has become used to the touch of one milker will decrease her yield whenever a strong hand takes hold of her teats.

Before the discovery of One Minute Cough Cure, ministers were greatly disturbed by coughing congregations. No excuse for it now. Stormes' Drug Store.

Farmers who have walnut trees on their lands may have a big fortune if they will sell on to these trees while only a few days ago one man sold 50 walnut trees for which he received \$10,000 in cash. This was in Michigan but there is just as good walnut in

Bedford county.—Shelbyville, Tenn., Gazette.

J. Sheer, Sedalia, Mo., conductor on electric street car line, writes that his little daughter was very low with croup, and her life saved after all physicians had failed, only by using One Minute Cough Cure. Stormes' Drug Store.

The Kentucky Millers Association met at Lexington last week and discussed the grain and flour situation. From reports before the association it was decided that the outlook for the wheat crop in Kentucky is better than usual at this time of year. There is not much activity in the flour trade, especially in the export line. The prices will remain about same.

For a quick remedy and one that is perfectly safe for children let us recommend One Minute Cough Cure. It is excellent for croup, hoarseness, tickling in the throat and coughs. Stormes' Drug Store.

An exchange says fall, winter and spring work is all being telescoped together just now. Many farmers are shucking corn and breaking sod delayed by the weather from last fall. Others have just fairly started breaking hemp which works also should now be completed. Oats seeding is also at hand, also clover. Altogether the farmer has his hands full.

The late Bill Nye once advertised a cow for sale as follows: "Owing to ill-health, I will sell at my residence, in township 18, range 18, according to government survey, one plush, raspberry colored cow, age 8 years. She is a good milker, and is not afraid of the cars or anything else. She is of undaunted courage, and gives milk frequently. To a man who does not fear death in any form she would be a great boon. She is very much attached to her home at present, by the means of a stay chain, but she will be sold to anyone who will use her right. She is one-fourth Shorthorn and three-fourths Lyena. I will also throw in a double-barrel shot gun, which goes with her. In May she generally goes for a week or two, and returns with a tall, red calf with wattle legs. Her name is Rose. I would rather sell her to a non-resident."

If your child is cross or peevish, it is no doubt troubled with worms. WHITE'S CREAM VERMIFUGE will remove the worms, and its tonic effect restore its natural cheerfulness. Price, 25 cents. Im

C. C. & J. E. Stormes, "How's the horse market in Garrard county, now?" was asked a leading horseman by THE RECORD the other day. "Well, said he, 'I never saw such a scarcity of good ones before. During the past few years, when horses were so cheap, the people seemed to lose interest in the matter and very few good ones were raised. There was a better demand for geldings than for stallions, and nearly all the tip-top stallions were altered. This, I am satisfied, is the principal reason for the scarcity of top-notchers in this county. I know a man who recently looked all over this section of the state to buy a first-class, highly bred stallion and he failed to find one for sale. I look for much breeding this season, but it will be to only first-class animals. The plug horse is a thing of the past now, and one is not worth his hay, but a man who owns several top-notchers is in clover. Yes sir, I am much encouraged over the horse outlook here, and look for much activity in that line."

The results over of an indulgence in food or drink are promptly rectified, without pain or discomfort, by taking a few doses of HERBINE. Price 50 cents. C. C. & J. E. Stormes, Im

**COL. B. M. BURDETT**  
Gives a Timely Talk on the Philippines, The War, Etc.

We, the American people, inaugurated a war in 1898 against Spain for the sole purpose of liberating Cuba from Spanish tyranny; that we did in a few short months with comparatively little expense and bloodshed. In order to accomplish the desired end our navy, under Rear Admiral Dewey, under proper orders, of course entered Manila harbor and destroyed the Spanish fleet there stationed, which was a good job, well executed. The destruction of that fleet was all that could be done there toward accomplishing the main object—the freedom of Cuba. We did not propose to liberate the Filipinos from Spanish despotic rule—it was not part of the program—we had no interest in that people, and they none in us. In that state of case our duty, as a liberty loving people, was to get out and away from there and let that people work out their own salvation with the other nations of the world, who by profiting, association and similarity in races, habits and modes of life, did have some interest in them, and sympathy with them. We made a mistake when we stayed there and undertook to set up a government over that people without their solicitation, and contrary to their wishes. We made another bad mistake when we agreed to pay Spain twenty million dollars for her right in the Philippine islands. We made another worse mistake when we agreed to see the Spanish army safe out of, and from the islands and into Spain.

But these mistakes have been made and the only question left to solve is; how are to get out of the middle—pay Spain the \$20,000,000, get the Spanish army out as best we can—buy them from the Filipinos or any other way without fighting, and then withdraw our army and navy and come home. It occurs to me that the idea of "Who will haul down the flag?" is a mere catch-phrase, too feeble and weak to catch an intelligent people. That we can conquer the Filipinos no one can doubt,—that we can whip them in battle, on land and on sea, is a demonstrated fact; that we are not afraid of them is too plain to admit of a doubt, that we are not afraid of any other nation interfering with us in our movements to subjugate those people is a settled proposition. Then why not "haul down the flag?" No one can say we did it through fear or cowardice, and most certainly we cannot make any reputation by fighting and conquering an ignorant people, half civilized and dressed in cloths and armed with bows and arrows. We don't need the islands for any purpose, either their markets or their products. Then why not "haul down the flag" and come home and save the lives of our poor soldiers from a miserable short life in the jungles, and a horrible death from burning sun and double dyed flag malaria. Haul down the flag and let that poor, ignorant people be free according to their own liking—don't enslave them.

We love liberty, and hate slavery, and so do they—give them liberty—not death. This is the way things look to a man in the pine woods of Florida, untrammelled by any other motive than the love of country, who wants no office, place or position, state or national, military or civil.

**Discovered by a Woman.**  
Another great discovery has been made, and that too by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption; and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz. Thus writes w. c. Hambrick & Co., of Shelby, N. C. Trial bottle free at R. E. McRoberts Drug Store. Regular size 50c and \$1.00.

**DEATH IN A BOX CAR.**  
Belief That a Deceased Tramp Had Smallpox—Another Report That He Died From a Blow He Received.

PARUCAH, Ky., March 22.—An unknown white man was found dead near the Illinois Central "Y" in the suburban portion of the city Monday night at 11 o'clock. He was a tramp and had been noticed ill in a box car during the day.

One report is that he died of smallpox. Coroner Phelps was summoned and is trying to get a jury. There is another report that he died from blows received. Great excitement prevails over the discovery. The man has only one arm. A case of smallpox was taken from the yard of the Reddick River infirmary here Sunday to the pesthouse. The afflicted came in from Fulton, Ky., and had gone to the infirmary for treatment. There are now only two cases of smallpox at the pesthouse.

**Asks For a New Trial.** LOUISVILLE, Ky., March 22.—Louis Schmidt, the snook keeper who was fined \$500 and sentenced to the penitentiary for operating a combined music box and slot machine, has asked for a new trial. Schmidt says an attorney of the company advised him to turn the machine.
